## Cigarette Vs. Pipe

NEARING THE END of what may be legitimately recognized as the farewell period of a more or less extended era of existence, incidents occasionally occur which bring to memory the "days of the long ago," with inclination to contrast the past with the present.

Bulloch county's tobacco crop is nearing the market stage, and reasonably this writer has prospects of sharing in some measure in the profits of that weed. Incidentally, the realization of this fact—and other more or less impressive incidents—call from childhood's long-ago days the prejudice against tobacco.

At about the age of seven, there were within our acquaintance boys five or six years older who had resorted to chewing tobacco as a promise of developing manhood. Bob Belcher declared that chewing the weed had enabled him to spit forty feet in a dog's eye—and was making a man of him. One afternoon this boy stealthily appropriated a plug of "Little Britches" chewing tobacco from a box in our father's grocery, and slipped out behind the store and began a vigorous process of development. It didn't stick. We lost our dinner, our breakfast of the morning, and our supper of the night before—and quit chewing tobacco right there.

At "Mudder's" Turner's home, where grandchildren were sometimes called upon to sleep at the foot of her bed to keep her feet warm, she—an old timer—had appropriated a right to smoke a clay pipe. Sometimes she required the youngster to apply a coal of fire from the hearth and light the pipe for her draught. Was it any wonder that blisters accumulated on our fingers—and that there sprang up a prejudice against grandmothers smoking?

In all the days since we have lived in our mind a sort of prejudice against pipes—and cigarette smokers. As we sat enigmatically at the ball game at Pilots Field on a recent evening, arm resting upon the rail between ours and the adjoining seat, suddenly there was a reminder of the coal which burned our finger when we were called upon to light "Mudder's" old clay pipe seventy-odd years ago. A charming faced, cheerful young lady, who sat in the adjoining seat, placed a lighted cigarette square upon our naked wrist—and we returned in memory to "Mudder's" clay pipe. The lovely girl was sincere in her apologies—she had not noticed that our wrist was there first. We forgave her—but certainly she had carried us far into the past by this little lack of caution.

## Overdue Tax Refunds

THE PRESIDENT of the New York Stock Exchange has announced a four-point program for reform in the federal tax policy affecting capital assets and the investment of savings in the securities of the businesses which supply us with our wealth of goods and services and employ millions of our citizens.

The recommendations are directed toward encouraging new investment, spreading the ownership of American business and promoting business expansion—all of which would mean an increase in the government's tax revenue.

The principal recommendations include a reduction from 6 to 3 months in the holding period necessary to determine whether a capital transaction is a capital gain or loss; halving of the effective rate of the capital gains tax; better treatment of capital losses; and easing of the present double taxation of corporate dividends by permitting a stockholder a credit on his federal tax bill of 10 per cent of dividends received.

These proposals would work at the long-term benefit of all of us, whether we own securities or not, by stimulating investment and encouraging business expansion and employment. And the direct immediate benefits certainly would not be confined to a few people of large means—the latest statistics show that almost 47 per cent of the individuals who reported capital gains had adjusted gross incomes of less than \$5,000, and another 21 per cent were in the \$5,000-\$10,000 bracket. The reforms advocated are long overdue.

# Farmer's Question Corner

PREPARED BY American Farm Bureau For Rural South

WHAT ABOUT HOG CHOLERA?

Q: How dangerous is hog cholera?

A: Cholera is our worst swine killer; causes losses running into many millions of dollars annually.

Q: Why is cholera so dangerous?

A: The virus of cholera is extremely contagious and one of the most deadly of all in the field of swine diseases.

Q: How is the virus spread?

A: In many ways. It may be spread by contaminated feed bags, garbage, wagon and truck wheels, or on the shoes of visitors. Even biting flies may spread it.

Q: What are the symptoms of cholera?

A: Usually it strikes without warning. Pigs lose their appetites, keep to themselves, become weak and depressed, get wobbly on their feet, and may scour. There is no cure. Sick pigs usually die within 4 to 7 days, very few, if any, recover.

Q: What can the farmer do to prevent cholera losses?

A: Vaccination in advance is the only preventive. Pigs should be vaccinated around weaning time. Only healthy pigs should be vaccinated, so a general physical checkup by a veterinarian is always recommended before vaccination.

Q: Are there any other precautions?

A: Yes. Vaccinated pigs should be kept in clean quarters and ranges away from old yards. Pigs should be watched so that they do not pile up or overwork at night. Ample drinking water and shade should be provided in hot weather.

NOTE—Due to space limitations, general questions cannot be handled in this column.

# Here's The Low Down From Hickory Grove

For study and comment in today's seminar, it will be the pros and cons of "sassafras." I get considerably hot up and perturbed as I listen to the expounding of great theories and hazy ideas on how to make you and me happy, sorta automatic and without fatiguing effort. I am not so particularly hot up about the folks who do the expounding—it is the battles of the second part who fall for the "sassafras."

Instead of growing more astute and being able to determine if it is a wolf in sheep's clothing, or if it is a real sheep, we have progressed backwards. But from over in the school house we get proposals for more and more dollars for education as the one sure way to ward off communism. The man there says nothing about the folks in our land who foment most of our socialist and communist commotion. The greatest fomenters are educated individuals. He is mum on that angle.

So now, why do we accept such polished palavers—why don't we look under the covers—why don't we put a simple 2 and 2 together and ask if it is salesmanship or what. Education is big business—the biggest—but still we don't savvy "sassafras." Asleep—you don't see Asleep in any school house library. Putting it there should be our next chore.

Yours with the low down,

JO SERRA.

## IN MEMORIAM

In memory of our precious husband and father,  
BEN S. MOONEY SR.,  
who departed from us one year ago, June 4, 1952.  
They tell us time heals all sorrow  
And helps us to forget,  
But time so far has only proved  
How much we miss you.  
How much we miss you.  
God gave us strength to face it,  
And courage to face the blow,  
But what it means to lose you  
No one will ever know.

WIFE AND CHILDREN.

CARD OF THANKS

We wish to thank our many friends for the lovely floral offerings and for the other many kind and thoughtful deeds rendered to us last week in the tragic death of my husband, Grady Williams, and for the interest taken in our little son, James, who was seriously injured in the same automobile wreck. Especially do we thank Lennie Simmons, who was uniting in his attention to James while he was in the Bulloch County Hospital. May God bless all of you.

MRS. GRADY WILLIAMS  
AND FAMILY,

## Between Us.

BY RUTH HEAVER

Merry wedding bells will soon be ringing for a pretty young miss who works down town. Right at the present time she is visiting the young man who, by the way, is a boy from our town but is in the army in a far-away state. While there he has given her a beautiful diamond, and when she returns from her visit she will be proudly wearing that ring on the third finger left hand. The wedding will take place in the late summer. Their plans work out—The past week found our high school seniors on the McKinnis Pond near Middleville for their annual picnic. After an hour of swimming the bathers went to dress, and imagine one of the prettiest seniors finding a very necessary piece of clothing and lovely bracelet had been stolen. Just pulling on shorts she discovered the bracelet and the necklace until she could get home—More of our seniors are registering for G.S.C.W. in September and Margaret Ann Dekle will enter Women's College of the University of North Carolina at Greensboro, N. C. One of the prettiest seniors at Teachers College is Eunetta Purvis, of Columbus. She is planning an early summer wedding. Eunetta has a very beautiful voice, and has certainly been very generous with it. —Statesboro was very proud of its first place in the tomato festival. One young man who stood on the sidelines was heard to remark at June Carr and Betty Hendricks (Miss T.C.) of Teachers College rode by on the float that he was sure now it was Statesboro that he was moving to if these girls are a sample of the girls of our town. —Parents are making plans for their children to be off to camp in the next few weeks. Many Nelson Bowen is one of our youngest campers, and last summer was away for nine weeks. She is counting the days until she will be leaving. Patty Crouch, one of our prettiest leaders, will be a counselor at a girls' camp out from Brewster, North Carolina, and will be rushed between the time she gets out of school here and reports at camp. Patty hails from Nashville, Tenn. Another popular teacher who has a wonderful summer vacation in Nona Quinn, who is planning to spend the summer in Europe. Nona teaches public school and has done outstanding work with the students, her quartet winning first place in the state, and the choir singing beautifully for many years. A postal check was sent to Mrs. G. H. Byrd. Mrs. Bob Thompson, Mrs. Bernard Scott, Mrs. Chatham Alderman, Mrs. Bud Tillman, Mrs. John Goodie, Mrs. F. C. Parker Jr. and Mrs. Hank Evans.

**WEEK END AT BEACH**  
Mrs. Lester Brannen and Mrs. Pearl Davis spent last week end at their Savannah Beach cottage and had as house party guests Misses Peggy Allen, Charlotte Campbell, Mary Weldon Hendricks and Joy Brannen, and they were joined by Miss Martha Dean Brannen and Miss Jan Murphy, both of Savannah.

**HELMUTH—CANNON**  
Mr. and Mrs. P. E. Helmuth announced the engagement of their daughter Helen to James Floyd Cannon, son of Mr. and Mrs. S. T. Cannon, of Statesboro, the wedding to be in June. Miss Helmuth is a senior of the Georgia Teachers College High School, and Mr. Cannon is a graduate from Statesboro High School; he served three years in the army, and is now engaged in farming.

**HENDRICKS—HENDRICKS**  
Mrs. Irene Hendricks and Bruce Hendricks were married Sunday afternoon at the home of Mr. and Mrs. Perry Cobb in the Port community by Elder H. C. Stubbs, pastor of Upper Leitch Creek Primitive Baptist church, in the presence of relatives and friends.

After the ceremony a reception was given for the assembled guests. Mr. and Mrs. Hendricks will make their home in Statesboro.

**MYSTERY CLUB**  
Members of the Mystery Club and a few other guests were delightfully entertained Wednesday morning by Mrs. Roy Tyson at her home on Savannah Avenue. Easter lilies, Glenn Ann's lace and pink and white gladioli were used in the rooms, and on the radio were lovely arrangements of macaroni and water lilies. Skimp soup was served with assorted sandwiches and tomato cocktail. Flower containers for high score went to Mrs. E. C. Oliver and Mrs. Willis Cobb. A pillow vase for low was received by Mrs. Imman Foy, and for cut Mrs. Al Strawell won a flower compote filled with assorted roses. Twelve guests were entertained.

**ADOPTION**  
Mr. and Mrs. Donald F. Hackett announced the adoption of a nine-month-old daughter, Ann Marie, May 21st.

Mrs. W. H. Armstrong will have as spend-the-day guests Friday at her newly built home, her sister, Mrs. Pindley Irwin, and Mrs. Gordon Garbutt, of Sandersville.

## ANCIENT SEAT IS BACK IN POSITION

Historic Piece Of Furniture Goes From The Times Office After Thirty-Six Long Years

Reposing in back row in the new Episcopal Church which was dedicated Sunday, there was a piece of furniture which for more than thirty-six years sat against the wall in the front section of the Times office and rendered silent service.

This piece of furniture was a moderately priced, painted-dried church bench which, in its early days, had served as a seating place for the small Episcopal organization which at irregular intervals held worship in the old Masonic Lodge room which stood on the site of the present brick structure. At some period not now recalled, the services were discontinued and the furniture distributed at random among those who comprised the congregation.

One member of that long-ago congregation was a man named T. D. VanDusen, who forty years ago came to Statesboro to teach band music. He had a young wife—musical and charming. She sang in public to the music of VanDusen's instruments. A change had come about in the management of the Statesboro News, then owned by a group of enterprising public spirited men.

The piece of church furniture which came to the Times office with the entire printing equipment of the Statesboro News, which, upon VanDusen's departure, was acquired by the Bulloch Times ownership on January 17th, 1917—thirty-six years and more.

The dust wiped off and with a fresh coat of varnish—the bench went last Saturday into the new Episcopal Church building, and was publicly dedicated with fitting exercises Sunday morning. Today there is yet a valuable piece in the front section of the Times office.

**THE USE OF COTTON HAS LONG HISTORY**

Tap Bennett, Central Of Georgia Railroad Historian, Looks Backward 5,000 Years

(By W. TAP BENNETT, Director, Agricultural Department, Department of Central Georgia Railway.)

In a previous article I gave a brief history of the use of linen, silk and wool fibers.

The early history of cotton is lost in the legends of unrecorded time, the use of the fiber being older than history itself. The growing, spinning and weaving of cotton was a flourishing industry in the Indus Valley and the Nile Valley in Egypt 5,000 years ago. In South America the Peruvians of the time of Christ were weaving cotton fabrics of a fineness that cannot be duplicated by any known process today.

When Columbus discovered America on October 15, 1492, he stated that "the natives came swimming toward us, bringing bales of cotton thread which they exchanged with us." This is the first recorded commercial transaction in the New World. Among the treasures that Columbus took back to Queen Isabella was a skein of cotton thread.

The defeat of the Spanish Armada led to the establishment of cotton as a major factor in English economy through trade with the Far East. The invention of the spinning jenny in 1764 by James Hargreaves, the steam engine in 1782 by James Watt, and the automatic power loom by Edmund Cartwright in 1785 led to the establishment of the first factories in England. Britain rapidly became the acknowledged leader in the textile field and her important textile trade enabled her to build a world empire.

The first power mill for the production of cotton yarn was established in this country at Pawtucket, R. I., in 1793, by Samuel Slater, father of American manufacturing. That same year Eli Whitney developed the cotton gin which made cotton the queen of all fibers. In the early

## Methodist Men's Club Assembles At Nevils

The Bulloch County Methodist Men's Club will hold its annual meeting June 22nd, at Nevils, R. P. McKell, the club's president, announced at the meeting Monday night at Brooklet. He asked the nominating committee, composed of Byron Dyer, Lester Bland and W. C. Hodges, with ex-officio members Hoke Brunson and himself, to be ready to report at that time.

The five major committees working on plans of work for the club will also make their report at this Nevils meeting. Dr. Fielding Russell entertained the group Monday night with a negro sermon. Henry J. McCormack was in charge of the program. The ladies from the Brooklet Methodist church served a steak supper.

**DEDICATE CHURCH IN PLEASING WAY**

Big Congregation Attends Elaborate Ceremony Sunday From Many Distant Points

A most impressive ceremony was the dedication Sunday afternoon, beginning at 5:30 o'clock, of the newly completed Episcopal Church at the intersection of Lee street and Highway 80 in the eastern section of Statesboro.

Regular services were held in the forenoon as per program and the near-completion of the building several weeks ago, of which the priest-in-charge is the Rev. J. C. Galey.

At the dedication in the afternoon the officiating minister was Rt. Rev. M. S. Barnwell, D. D., Bishop of Georgia, who delivered a most masterful address of solemn recognition of the various existing congregations, and expressed deep appreciation for the co-operation which has been accorded the church in the establishment of the program. "We have been overwhelmed and made humble by the generosity of our friends," was the note of a list of contributors for various causes comprised many persons from far and near, and the attendance of the afternoon was made up of friends from distant points.

The printed documents distributed with the program gave recognition by name of all those who had assisted in many ways to the establishment of the church.

**BLANCHARD—GROOVER**

Lt. Groover is presently serving with the U. S. Air Force, and is stationed at Mather Air Force Post, Memphis, Tenn. Prior to entering service Lt. Groover attended the University of Georgia, where he was a member of the Sigma Chi Fraternity.

The wedding will be solemnized the latter part of June.

**AKINS FAMILY PLANS HOLD ANNUAL REUNION**
